## WHAT IS ROARTS (\$ROAR) TOKEN?

RoArts Token is a 100% Community-backed De-Fi token with scheduled burn operations, dynamic liquidity fee management, and most importantly, earning holders ROAR for every transaction.

RoArts will continuously focus on the process of creating an NFT Series with a profitable business model that will give ROAR awards through events and tournaments, the complex De-Fi process defined in the contract.

NFTs (Fungible Tokens) are unique and are created and minted as one type only. Especially after market awareness, NFTs are expected to have more room to grow in the coming years as well. RoArts Team will work on game, audio and video production and NFT creation in the next projects.
